## *comparative literature*

*Comparative Literature* provides a forum for those scholars and critics who are engaged in the study of literature from an international point of view. Its editors define comparative literature in the broadest possible manner, and accept articles dealing with the manifold interrelations of literatures, with the theory of literature, movements, genres, periods, and authors—from the earliest times to the present.

*Comparative Literature* particularly welcomes longer studies on comprehensive topics and on problems of literary criticism.
